New datasets from Australia

Bryony Willcox <b.k.willcox@reading.ac.uk>

6 de agosto de 2020, 16:43

Para: Alfonso Allen-Perkins <alfonso.allen.perkins@gmail.com>

Hi Alfonso,

Apologies for this, I mucked up the site numbers for these two years. It wasn't your code at all!! I have corrected this now in both the field level data sheet and in the original data template I sent, I have attached both here.

Thank you and sorry again for this.

Thanks,
Bryony

Hello again, Bryony!

Thanks for sending me the updated insect_sampling file.

Please, find attached a new version of field_level_data.csv. Now it contains avo_5 data for 2016 and 2017 (with their respective values of richness and abundance). However, I was not able to add the following information to those fields: yield, yield_treatments_pollen_supplement, and fruit_per_plant information. It was not included in your first template. If you have such information on avo_5, please, send it to me and I will fulfil the csv file.

Thank you very much for all your patience and constant help, Briony!

Have a nice evening!

Alfonso

Not a problem, thank you! Oops sorry, yes here it is.

Hi Bryony!!

Thank you very much for your fast update on these studies.

I went through your feedback and you are right: In the insect_sampling sheet there are records for avo_5 in 2015, 2016 and 2017, respectively. After checking my R-script, I found a bug. For that reason, the information on 2016 and 2017 sites was missing in the field_level_data file. Throughout the next few hours I will fix my script and I'll send you the resulting file. Anyway, sorry for the inconvenience.

On the other hand, according to your feedback, it seems that you updated the brief description of your methodology. However, I did not find the new file. Could you send me the new insect_sampling file again?

Thanks again for all your help, Bryony.

Best regards,

Alfonso

Hi Alfonso,

Please find attached the checked and updated review files and my responses to the query file.

I hope this data can be useful for your project!

Thanks again,
Bryony

Hi Alfonso,

I'm good thanks, hope you are too?

That's great, thank you for resending those. I've downloaded them straight away, so I'll get these back to you this week!

Thanks,
Bryony

Hi Bryony!

How are you? Hope you are doing well.

Thank you for your feedback! I sent you a new link to download your folder. It contains the files of your new crop systems and an updated version of your data ownership (excel) file.

Thanks again for all your help, Bryony!

Best,

Alfonso

Hi Alfonso,

I've attached the checked and updated data for the mango datasets.

Also, I missed the deadline to download the second set of Wetransfer files (with the new data I sent through) would you mind resending me those? Sorry about this!

I hope all is going well.

Thanks,
Bryony

Hi Alfonso,

OK terrific, I'll get these back to you in the next few weeks.

Thanks, you too!

Thanks,
Bryony

Hi Bryony.

I hope this email finds you well.

I sent you a new link to download your folder. Its contents have been updated and now the information on the new crop systems is included.

Regarding the deadline, it can be extended till the end of August. So you can send your feedback whenever is best for you.

Have a nice day!

Best regards,

Alfonso
